

Press Release – July 2014

Fawcus Corporate proud to be awarded Sell-Side Corporate Finance Adviser of the Year – UK

Fawcus Corporate is proud to have been awarded 'Sell-Side Corporate Finance Adviser of the Year – UK' in the Acquisition International 2014 M&A Awards. This follows hard on the heels of last year's 'Corporate Finance Lead Adviser of the Year' award in the 2013 M&A Awards.

The Sell-Side Corporate Finance Adviser of the Year award was announced in the recent Acquisition International 2014 M&A Awards supplement.

"The awards are handed out solely on merit and are awarded to only those most deserving for their outstanding work over the past twelve months. This year's winners are some of the most dedicated, forward-thinking and determined we've seen in all our time running these awards" said Kathryn Turner, Chief Coordinator of the 2014 M&A Awards.

Fawcus Corporate provides Corporate Finance Lead Advisory services in M&A transactions for entrepreneurial company directors and shareholders.

"We specialise in planning exit strategies and implementing sale processes for owner managed business including family owned companies. This can be a very stressful time for the directors and shareholders and we take a lead advisory approach – identifying potential purchasers; negotiating the main terms of the transaction; and then managing the project through to a successful completion.

We are delighted that the 'Sell-Side Corporate Finance Adviser of the Year – UK' award recognises our expertise in this core area of activity", said David Fawcus.

In addition, Fawcus Corporate frequently undertake strategic planning assignments with director/shareholder teams developing the next stage of their business plans and also acts for strategic purchasers looking for complimentary acquisitions to enhance their growth.

"Many entrepreneurial company shareholders had put their exit strategies on hold in recent years, but for many now is a good time to 'go to market' as there is a large number of strategic acquirers looking to invest in synergistic acquisition opportunities" added David Fawcus.
